Children's Library International has been traveling to Southeast Asia for 11 years, providing great tour experiences, and more than that, great life experiences. You'll make a precious memory for yourself and help build dreams for those less fortunate in the far flung corners of the world. Along with the exciting exotic locales of Southeast Asia, you will meet the people, close up and real. We'll travel the mighty Mekong River, see the capitals of Hanoi, Phnom Penh and Vientiane.

This trip features ground travel through villages and countrysides with water travel up rivers and canals. In the process you will be doing sightseeing and visiting orphanages, Library/Learning Centers and Schools.

This is an emotional roller coaster of history and culture---from the wrenching sites of the skulls in the Killing Fields, the worst of man's inhumanity to man, to the many who dedicate their lives to teaching and caring for the kids on mountaintops, orphans and street children, the poor, the lost and forlorn---the tempest-tost of history. We'll take you from the heart of the "Killing Fields" of Cambodia, to the battle fields of Vietnam and the Ho Chi Minh Trail, to the Secret War in Laos. There is the cultural and site seeing tour with ethnic performances at schools and kids cultural centers and visits to major attractions in each of the cities. Finally, you'll be presenting Christmas gifts to the orphans at Christmas Parties with our very own
